

## MAY CURTAIL MILK SUPPLY

Pattee Throws Down Gauntlet to Contractors in Boston.

"The milk supply of Boston will be curtailed unless the contractors increase the price to the farmer," announced Richard Pattee of Laconia, N. H., secretary of the New England Milk Producers' association, after a meeting of the board of directors tonight. He said the board had voted unanimously to this effect.

"The farmer must get a fair price, and that we have set at 33 cents for an 8 1/2 quart can, or he must sell his cows or call a milk strike," said Secretary Pattee.

Tonight's action, he explained, was the result of notices posted by one contractor announcing that he would pay 29 cents a can during the summer. The producers last year received 31 cents a can, but recently voted to ask for 33 cents.

## M'CABE NAMED FOR JUSTICE

To Succeed Judge Frost of Dover District Court.

The governor and council on Friday nominated Attorney James McCabe of Dover as Justice of the District Court to succeed Judge George S. Frost, who shortly retires on account of reaching the age limit.

Walter C. Kane of Durham was appointed Deputy Commissioner of Agriculture in charge of grassy mown work.

Try our new method of auto tube repairing, cheaper and much better than vulcanizing. We also make a specialty of bicycle repairing. W. F. Woods, Commercial street.

Lotus Quartet concert seats at Knight's only. Concert April 3. No tickets sold by solicitors.

## VILLA'S ARMY IS VICTORIOUS

Details of Frightful Struggle of Four Days Near Torreon are Finally Received.—Loss of Life is Enormous

Gomez Palacio, Mex., March 27.—Four days of fighting, including three desperate assaults by rebels were crowned today when Gen. Francisco Villa moved into this city and established his headquarters within three miles of Torreon.

The final and deciding assault was delivered yesterday. It was preceded by a bombardment after which the infantry and cavalry dashed into the streets.

Rifles, machetes, pistols and hand grenades were used in a hundred different encounters in the narrow thoroughfares. The grenades, of home manufacture, were lighted with the cigarettes, which are an unofficial part of the equipment of every Mexican soldier.

General Villa does not yet know his own loss, except that it was heavy. The wounded suffered terribly from thirst, and many died because of lack of water and surgical attention. The dead on both sides were numerous.

ferent encounters in the narrow thoroughfares. The grenades, of home manufacture, were lighted with the cigarettes, which are an unofficial part of the equipment of every Mexican soldier.

General Villa does not yet know his own loss, except that it was heavy. The wounded suffered terribly from thirst, and many died because of lack of water and surgical attention. The dead on both sides were numerous.

## TO START EXPERIMENTAL FARM

American Agricultural and Chemical Company Begin Work on Its Land

The American Agricultural Chemical Company, which controls 125 acres of land off Woburn avenue, will open up for the first time the experimental farm this year. Today the Herald man was in conversation with Supl. G. W. Berry, regarding the plans of the company. Mr. Berry informed the writer that the company will cultivate about ten acres and will try out various kinds of crops, including corn, sorghum, and alfalfa. In addition to this four acres will be given to orchard cultivation in which the company will feature apple and peach trees and bushes.

berries, including strawberries, raspberries, and gooseberries. A force of experienced farm hands will be employed by the company. The experimental work will be in charge of Dr. H. J. Wheeler, a former director of the Rhode Island experimental station. Farm Superintendent Berry is a graduate of New Hampshire College and comes from Stratham. From time to time the leading dealers of fertilizer throughout the country will come here to inspect the farm and watch the work of the company on vegetables and fruit.

## MANY DELEGATES AT SESSION

Eastern Y. M. C. A. Conference Being Held in This City.

Notwithstanding the inclement weather nearly 250 delegates from the several Y. M. C. A. in this section of the state assembled here this Saturday morning to attend the Eastern Y. M. C. A. Business Conference, held under the joint auspices of the state executive committee and the Rockingham county committee. On their arrival here the delegates proceeded to Y. M. C. A. building to register and be assigned to homes. At 10:30 a service was held at the Middle street Baptist church, followed by an address, "The Principles of an Ideal Manhood," by Rev. Charles M. Woodman of Portland, Me.

The business meeting was followed by a symposium on "Boys' Ideals," "An Association Boy," Lemuel Pope, Portsmouth; "A Country Boy," Charles W. Parsons, Rye; "An Academy Student," Richard P. Cleveland, Exeter; "A College Man," Horace V. Reed, Durham.

At noon a banquet was served at the Y. M. C. A. building, the menu consisting of meat pie, fish salad, peas, assorted cake, tea and coffee. The place cards were furnished by the scholars of the Barrington school, who also cooked 700 biscuits for the occasion. The banquet was attended by Mayor Yeaton and twenty-five or more business men.

The following ladies had charge of the dinner: Mrs. Richardson, Mrs. F. J. Bickford, Mrs. Horace B. Frye, Mrs. Elizabeth Perkins, Miss M. E. Rothwell, Mrs. Arthur Locke, Mrs. Charles Bailey, Mrs. George Dyer, Mrs. D. H. Trefethen, Mrs. William Hill, Miss Fay Trueman, Miss Dorothy Bennett.

The banquet was culminated by school and club choirs, music by the Pinkerton Academy orchestra and Hampton Academy singers. Rev. Raymond H. Huse was the toast master. The address of welcome was delivered by Mayor Harry B. Yeaton and short remarks were made by other speakers.

The early afternoon was devoted to recreation and contests, and demonstrations by the athletes. The latter part of the afternoon was spent in a conference, led by Mr. David B. Porter, of New York, International Y. M. C. A. secretary, and luncheon.

In the evening there will be a song and devotional service, music, stunts by visiting groups and an address by Rev. Frederick J. Libby of Exeter. Sunday morning attendants will attend church with their hosts, and in the afternoon there will be an appropriate service at the Y. M. C. A. building.

At the business meeting the following officers were elected: President, Richard I. Cleveland, of Exeter; first vice president, Lemuel Pope, 3d, of Portsmouth; second vice president, Charles Gray of Pinkerton Academy; secretary, Elbridge Shaw of Sanborn Seminary; assistant secretary, C. L. Stevens of New Hampshire college.

Notes of the Convention. It was an interesting sight to see four hundred clean, bright boys enjoying the fine spread at the Y. M. C. A. this noon.

Secretary Parker of the local Y. M. C. A. and County Secretary Hughes have had a busy time.

A group photograph was taken in front of the Middle street Baptist church this noon.

The orchestra of Pinkerton academy boys gave a fine concert during the luncheon.

The school cheers by the boys during the dinner added life to the gathering.

## RYE NEWS

The regular meeting of Rye Grange was held and the third and fourth degrees were conferred on four candidates. Following the initiation a supper of oyster stew, pickles, crackers, rolls, cake and coffee was served and was in charge of Mr. and Mrs. William Jenness, Mrs. Louisa Rand, Mr. and Mrs. Irving Philbrick and Miss Emily Philbrick.

A pleasing literary program was presented and was as follows: "Essay," "Community Service"—Mrs. Laura E. Locke. Paper, "An Ideal Type of Country Living"—Mrs. Marion Goss. "Essay," "Scientific Efficiency"—Eugene Tuttle. Vocal Duet—Mrs. Lizzie B. Seavey, Mrs. Nellie B. Seavey. There was a large attendance present.

Work left with the late Charles N. Holmes on Penhallow street can be found at William Horne's, 23 Daniel street, sawdust, locksmith, umbrella repairing, grinding, etc.

## GOING AFTER THE LEAGUE MUSTER

Members of Franklin Pierce Veteran Association Want Big Event Held in This City

The members of the Franklin Pierce Veteran Firemen's Association want the New England League muster held in this city the coming season and a meeting of the association will be held next Wednesday evening when the members will talk the matter over and in all probability appoint a committee to confer with the Board of Trade to see what aid can be expected from that source in holding the muster.

The members of the local Veterans Association claim that they have received assurance that the muster can be secured for this city and all that is needed is a sufficient sum of money to defray the expenses of prizes and other expenses attending such an event.

The vote point will pride to the former muster held in this city when all prizes were paid on the day of the muster and the affair as a whole was conceded to be one of the best ever held under the auspices of the New England League.

The Franklin Pierce Association has since its formation taken a great interest in this form of sport and after many set backs that would have discouraged some organizations, a few years ago purchased the famous hand-lub Burek and since the machine

came into their possession have made a good record with it. They also have the hand-lub True W. Priest, originally called the Mohawk Chief, which is still capable of making a good showing. Owning two good hand-lubs the boys feel that they are prepared to make a good showing with other New England machines and are doubly anxious for the muster to be held in this city.

When the last muster was held in this city it brought many people to the city and it is claimed by the members of the local association that the holding of a muster in this city would mean the considerable expenditure of money with our local business men, particularly the hotels and restaurants.

The local Vets are very enthusiastic over the project of holding a muster in this city and say if they can get the co-operation of the Board of Trade in the matter, they will give out fifty of the best musters yet held in New England, as many of the crack veteran organizations are desirous of coming here, after hearing such good reports of the previous year held in this city under the direction of the New England officials and the Franklin Pierce boys.

## SHOEMAKERS ARE HEARD

Appear Before the Public Service Board on Freight Rates.

At the conclusion of the freight rate hearing which was held in the senate chamber at Concord on Friday before the members of the public service commission, Edgar J. Rich, general solicitor of the Boston and Maine railroad, made a plea to be allowed to put in force the proposed changes in the one-way passenger rates and the mileage rates without waiting for action to be taken by Massachusetts on the elimination of the 10, 12, 25, and 50 trip ticket rates.

This move on the part of the railroad was hinted at by Mr. Rich last week and means if it is acted upon, by the commission favorably the cancelling of the present two cents a mile and other rate tickets and establishing in their places at flat 1-2 cent rate tickets. The mileage rate would be raised from 2 to 2 1/4 cents. Mr. Rich estimated last week that the change would mean an increased revenue of over \$1,000,000 a year. The commission has taken the matter under consideration.

The greater part of the time was given up to a conference between the representatives of the Boston and Maine and the leading boot and shoe manufacturers of the state.

Boots and shoes have had in the past special commodity rates from manufacturing points to Boston and they are still in force. However, they are to be cancelled and are to be put on a third class basis. Joint rates to the west, New York and south are not to be affected.

Particular interest was paid to rates on the raw material for shoes. Special commodity rates have been in force to the more distant parts of the state from Boston, but Manchester and Portland manufacturers have taken advantage of the low class rates.

On April 1 the class rates are to be increased. It affects the rates to the Manchester and Portsmouth manufacturers while the others are still at the commodity rate. The shoe manufacturers are to be taken care of by a special commodity rate to be taken up. When a definite basis is proposed, the shoe manufacturers will be given a hearing. The session was taken up by Harvey

## VETERAN RIVER PILOT DEAD

Capt. Daniel W. Marden Answers the Last Roll This Morning.

Capt. Daniel W. Marden, the veteran river pilot, died at his home on Rogers road in Kittery, this Saturday morning, after a brief illness, aged 70 years, 3 months and 2 days. He was born in Lyme, the son of Reuben and Charlotte (Moulton) Marden. When a young man he found employment on the navy yard in the lodge. When the ferry boat Emerald was placed in commission to run between this city and the In command and ably filled the post-navy yard. Captain Marden was placed on for years, later being in command of the ferry boat No. 132. He retired from his duties as pilot about a dozen years ago. Since taking up his occupation on the navy yard he resided in Kittery and took a great interest in that town and its welfare. He was one of the incorporators and trustees of the Orchard Grove cemetery and at his own expense had the fine receiving tomb built and gave it to the association, which will be a lasting memorial to his name.

He was one of the oldest members of Riverdale Lodge, I. O. O. F., and Elgie Encampment, also a member of St. G. Parker Post, O. A. R. of Kittery. He took a deep interest in all three of these organizations and his counsel was highly regarded. He is survived by one son, George H. Marden of Kittery, and two sisters.

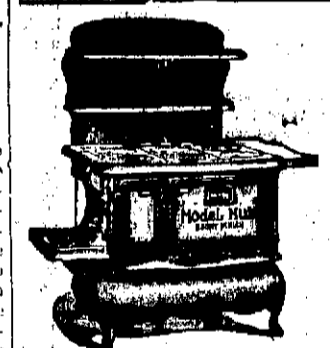

SCENE IN "PATE'S WEEKLY" AT THE PORTSMOUTH THEATRE MONDAY AND TUESDAY

This is a remarkable motion picture of the accident which put Marquis and his Sunbeam car out of the running in the Grand Prize race at Santa Monica, Cal., some weeks ago.

The motion picture camera man had his instrument trained on "Death Curve" at the moment when Marquis, leader of the field, swung round the curve, trailed by a blinding blanket of dust and smoke. More eloquently and accurately than human eye-witness could describe, the motion picture film tells the story of the crash. A thrilling auto race.

## Ranges Of Quality Of Durability Of Economy

We have got the goods and our prices are right.

8-18 Rival Standard..	\$20.00	8-20 Pearl Hub.....	\$40.00
8-20 Standard B.....	\$25.00	8-20 Magic Hub.....	\$45.00

C. Kingsbury	208
Paul	202
Carr	202
Harney	202
Pfeister	202
White	204
Ronner	204
F. Fernald	204
Mitchell	204
Burch	204
O. Fernald	204
Cutter	204
Sabina	204
R. Adams	204
W. Fernald	204
Lynchey	204
R. Fernald	204
Grant	204
Came	204
Parley	204

## BASKETBALL

A Y. M. C. A. picked team went to South Berwick on Friday evening and were defeated by the Home Theatre team by the score of 34 to 21. The local boys had never played together and were easy for the Berwick boys.

**Class Games at Y. M. C. A.**  
There were two games at the Y. M. C. A. gymnasium on Friday afternoon. The Freshmen sprang a surprise on the Sophomores and won the game 26 to 20.

Butler played a fast game, shooting 6 baskets.  
The score:  
Freshmen Sophomores  
Butler 26 Richardson 10  
Mulholland 10 Davis 10  
Clark 10 Craig 10  
Meadow 10 Willey 10  
Phiney 10 Bennett 10  
Sloberg 10 Peckering 10  
Score, Freshmen 26, Sophomores 20.  
Goals from floor, Butler 6, Mulholland 4, Clark, Akerman 5, Craig 3, Davis, Goals from fouls, Butler 2, Mulholland 2. Referee, Billings, Timmer Shillaber and Scorer, Peckering.

**Champions in Practice Game**  
The Wenchesa team defeated a picked team from the high school on Friday afternoon. The Wenchesa are to play here next Wednesday and at this time it means to try and get back the championship title. The line up:

Wenchesa	Picked Team
Brackett 10	10, Thomas
Badger 10	10, Smith
Newton 10	10, Horan
Murphy 10	10, Shannon
Bisset 10	10, Holkan
Butler 10	10, Butler
Score: Wenchesa 20, All Stars 10	
Goals from floor, Newton 5, Murphy 10, Brackett 4, Badger 3, Horan 2, Shannon 2, Thomas.	

## EAT ORANGES

Advice Given by Dr. Willey Who Says They are Better Than Medicine

Dr. Harvey W. Willey former chief of the bureau of chemistry of the department of agriculture, and university admitted to be one of the greatest authorities on pure foods and dietetics in the world says: "Eat oranges; eat them in winter, eat them in summer; eat as many as you can afford to buy; they are better for you than physic."

In an interview Dr. Willey says: "Oranges are excellent for people. It is good to eat oranges for breakfast, and also for dinner—not from a medical, but an anti-medical standpoint. Both oranges and lemons ought to be used as freely as the financial ability of the consumer may permit. A laboring man may not always be able to eat oranges at breakfast yet the food is very cheap and the consumption of it will obviate the need of physic, and save many a doctor's bill."  
"Note that I do not say 'eat an orange for breakfast,' but eat oranges. Even if in straitened circumstances, people should eat plenty of oranges and lemons not only in the summer time but all the time. I don't think anything I ever knew said in praise of a fruit diet is too strong to say about oranges and lemons. The abundant production of oranges and lemons in California, their excellent quality and the cheap transportation across the country, have put these blessings to mankind within reach of every person of moderate circumstances."

People ask sometimes whether oranges should be eaten at the beginning or end of a meal. It is better to eat oranges first; the effect cannot be so good after one has partaken of other food."

## IRON WIRE MUST GO

About two miles of copper wire has already been put in the fire alarm system. The system covers a network of 23 and 30 miles in all and it is the plan to replace all the old iron wire by copper as fast as possible.

## LARGE ATTENDANCE AT ORGAN RECITAL

The North church was again crowded on Friday evening, despite the disagreeable weather and the large audience were delighted with the very excellent organ recital program rendered by Mr. John Herman Lund, F. A. G. O., organist and Miss Susan E. Bothwell soprano.

The recital was one of the best being given during the Lenten season and they all have been very largely attended, and the programs very fine.

Mr. Lund the artist of last evening's program is one of the noted organists of the country and his program of last evening was very well rendered.

Miss Bothwell was in excellent voice and her selections last evening were finely rendered. The program:  
Pastoral Sonata, Opus 38, Rheinberger  
(a) Pastoral,  
(b) Intermezzo,  
(c) Fugue.

Andante Congrazia, Hardwick  
Aria I Will Exalt Thee, O Lord, (Bibb)  
Casta  
Fugue in G minor, Bach  
Andante (6th Symphony), Beethoven  
Offertoire in F (manuscript)  
John Herman Lund  
Aria—Jerusalem, thou that kildest the prophets, (St. Paul)  
Mendelssohn  
Scherzo Symphonique, Gullstrand  
In the midst of the battle I turned.  
Lullaby

Improvisation—"The Son of God goes forth to war."  
Grand Choeur (Grand Piece Symphonique) (manuscript) France

## KITTERY

At the meeting of Kittery Grange last evening a class of nine was given the third and fourth degrees. About 20 members of John F. Hill Grange of Eliot were present. The feature of the evening was the supper, the tables being loaded down with candies, and to which all did ample justice. Speeches were made by Master W. O. Kennard of the Eliot Grange, Chester Spinney of Eliot, Master Aaron H. Brackett of Kittery Grange, and others. A tenor solo was rendered by Albert I. Sprague, and a social hour was enjoyed at which time popular songs were rendered by a large chorus.  
Mr. Charles Trafton of Love Lane is confined to the house with a severe cold.  
Mr. George Marden of Pierson street is out after a few days' illness.  
Fresh fish at Foy's Wharf.  
Mrs. J. Edwin Paul has returned from a brief visit with relatives in New York Harbor.  
Master Edmund Littlefield of Pine Street is ill with blood poisoning.  
Mr. Chester Boutler is ill at his home on Government street.  
Plans are being made for "Veterans' Night" by the Kittery Grange and a very interesting program is promised.  
Services of the Second Christian church will be as usual tomorrow. On Sunday next Rev. Arnaldo Nadio will conclude his duties as pastor of the church. He is now engaged in missionary work in Massachusetts.  
Second Methodist Church, Sunday, vestry at 10; adult Bible class taught by the minister; preaching service at 11, "The Great Commandment"; vesper service at 5, "Return of the Prodigal"; Epworth League meets in the vestry at 6. Prayer meeting on Tuesday evening at 7.30; a Bible study will be the order for the evening conducted by the minister. The monthly meeting of the official board will meet at the close of the prayer meeting. All the old officers as well as the newly elected ones are requested to be present. There will be an election of board officers for the year.

## FIELD MARSHAL WILL AGREE TO REMAIN

London, March 27.—The resignation of Field Marshal Sir John French and Lieut. Gen. Sir John Spencer D'Almeida have not yet been withdrawn, and Premier Asquith, after deferring his statement twice, was able only to announce in the House of Commons this afternoon that the Government still was awaiting the reply of the army officers to the Cabinet's request that they remain in their posts.

Premier Asquith reached the House of Commons straight from the second Cabinet meeting held today, both of which were attended by the chief of the general staff, Field Marshal Sir John French. The Premier said matters in question involved great complexity and difficulty, and seemed to the Government to require very full consideration. A partial or provisional statement would be unsatisfactory.

Sir John French and Lieut. Gen. Sir John S. D'Almeida, the adjutant general of the forces, had intimated a wish to be relieved of their offices, Mr. Asquith said, not because of any differences between their views and those of the Government, but because of the conditions under which the army should be employed in the aid of civil power, but, having issued the memorandum to Brig. Gen. Gough and the

other officers of the 3d Cavalry Brigade at the Curragh, they thought this course incumbent upon them.

"A Genuine Misconception."

Mr. Asquith then added: "The Government has conveyed to them its wish that, as there is no difference of opinion on any ground of policy, they should not persist in their request, the carrying out of which the Government would regard as a serious misfortune to both the army and the state. We still are awaiting their final reply."

"These two gallant officers believe that in the circumstances they were justified in believing their action was in accordance with the instructions of the Cabinet and that they were transmitting those directions to the officers concerned."

"It is clear to us and to them that there has been a misconception—a genuine misconception—in regard to the intention and purport of the proceedings in Ireland, out of which these difficulties have arisen."

"In view of these misconceptions and to obviate the possibility of their recurrence in the future, the army Council has today—Field Marshal Sir John French and Lieut. Gen. Sir John D'Almeida being present—unanimously determined to issue a new army order."

## VILLA HAS TAKEN GOMEZ' PALACIO

Constitutional Headquarters (above) Gen. Villa and his Rebel army, March 27.—(Delayed by my after four days of almost incessant fighting during which victory seemed first with one side and then with the other, occupied Gomez Palacio today.

Closures on both sides have been heavy.

The Rebels delivered three assaults before permanent success was achieved, and at times the battle extended into the leading streets of Torreón proper.

Villa predicts that he will have the latter city by Saturday or Sunday.

## LONG FIGHT FOR LERDO

Federals Failed to Retake Town, Villa Says—Rebel Sends Two Messages From Gomez Palacio.

Juarez, Mex., March 27.—The Federal soldiers at Torreón failed last night in a 10-hour fight to retake Lerdo, according to a telegram received here today, signed Gen. Villa. The telegram was dated Gomez Palacio. Lerdo is a manufacturing town in the suburbs of Torreón.

Another brief message came from Villa himself. It was curt and contained a command for speedy shipment of the military munitions from Juarez, and an order that an equipment for rebuilding railroad tracks be hurried south. The fact that the messages were sent from Gomez Palacio, Villa showed that the Rebel leader had captured that suburb of Torreón.

That Villa had ordered the munitions was construed by some to mean that he was to begin his attack on Torreón proper in the immediate future, and that he had met unexpected conditions to surmount.

The machine has been undergoing repairs here, and early today it was not known how soon it could be put in running order, but Manuel Chao, military governor of Chihuahua last night gave his personal supervision to the work of expediting its shipment to the front.

The truck equipment demanded will be shipped from both Chihuahua City and Juarez. The order for the equipment was thought by Chao to have meant that Villa had met far more stubborn resistance in his attack upon Torreón than he had expected and that he wished to have apparatus to repair his railway immediately at hand, so that he might remain away from his base at Chihuahua for as long a time as possible.

## "REBELS DEFEATED"

Washington, March 27.—The Mexican Embassy today received the following dispatch from the Mexican consul, Senor Diebold, at El Paso.

"Rebels have been severely defeated at Torreón. A column of 5000 troops under Gen. Moore has left Saltillo in banking movement to reinforce the garrison. The Rebels last week also suffered a severe repulse at Monclova, losing over 1000 men, as well as at Artega, where the losses were over 100."

## B. F. KEITH DIES SUDDENLY

Palm Beach, Fla., March 27.—On the 20th anniversary of the opening of his Boston house, which was being celebrated yesterday in this city, B. F. Keith, owner of the theatre circuit bearing his name, dropped dead at midnight in the Breakers Hotel here, where he was stopping with his wife and A. Paul Keith, his son. Death was due to valvular heart trouble and was instantaneous.

Mr. Keith was in his room discussing the growth of vaudeville from the time he started the circuit in 1888. His son suggested that he rest and continue the conversation in the morning, then stepping from the room when he returned his father was dead.

Dr. J. Foster Bush of Boston, an old personal friend and family physician, was in an adjoining room. Dr. Owen Kennan was attending the case.

Mr. Keith went for a wheel chair ride Wednesday with Frank Daniels, and the day previous with E. F. Albee, his general manager, now in St. Augustine. Others of his personal friends here were Mr. and Mrs. Walter P. Cook of Buffalo.

A Paul Keith will start for Boston with the body this morning. The funeral there will be private.

## SIMPLE CARE OF CHICKS

Economy in Raising Them.  
DR. SANBORN, Holden, Mass.

There is less fuss in rearing of chicks than a few years ago. A warm brooder some one liter, cracked grain and grit, with perhaps a mash containing ground grain and animal food and you should raise 90 per cent of the chicks.

Every chick deserves to be well hatched of sturdy ancestry and properly reared. The eggs should be from carefully selected stock, well hatched and fed, to produce chicks that stand adverse conditions. The hen or incubator should do its part well, as many a slip is made between the laying of the egg and the hatching of the chick.

I prefer the lamp heated brooder to either the hen or the heatless brooder, for while some hens do good brooding and in some seasons you can raise good chicks with the heatless brooder, yet for easy, successful brooding of fifty chicks my preference is for the heated brooder.

The chicks, when dry, are taken from the hen or machine and transferred to the well warmed brooder. I prefer it should be fully as warm under the hoyer as was the incubator. Then, if too hot, the chicks can be spread out into the less warm part of the brooder floor, or if any hour the temperature drops the chicks can retire to a warmer place under the hoyer.

## What To Feed Them.

At the start the chicks get cold water to drink and only the food that is in the barn waste used to cover the brooder floor. Really they need no food, and what they find in the waste is plenty. When a few days old they need light feeding of cracked wheat, good fish or beef scrap (personally I have found nothing better than a good grade of fish scrap) added at eight days of age and finely cracked, dry corn at ten to twelve days. It is important that all chick feed be moist, sweet and clean. Avoid musty corn, scrap that is fit only for fertilizer, and stale drinking water. Unless there is some grit in the barn waste that is used for brooder floor it should be supplied. Chicks need a warm place to retire to when cold, an open room to get out into and exercise, as well as a grass run to range over when two weeks old. Close confinement to hot brooders tends to give leg weakness. As the chicks grow in age the heat of the brooder can be reduced to about 80 degrees. Too many chicks are hatched that are doomed to die because from weak stock or incubated wrongly, but the blame is usually laid on the brooder. Yearling hens make the best of breeders, better than pullets, and are in their prime through March and April, which is the time for hatching.

## STOCKING UP WITH PLANT FOOD

Buy Your Fertilizer Intelligently  
E. K. PARKINSON

In buying commercial fertilizer do not be guided wholly by a chemical analysis of the crop to be fertilized. Soils differ widely and may be deep or shallow, sandy or loamy, containing liberal supplies of plant food which could be brought into use by deep plowing and thorough cultivation, or perhaps markedly lacking in plant foods. First, then, you must know something of the character of your soil, and you may usually count on sandy and gravelly soils being poor in potash and phosphoric acid; clay soils usually rich in potash and poor in lime and phosphoric acid; limestone soils rich in that element and phosphoric acid and poor in potash, while soils containing leaf mold or other kinds of vegetable matter are usually rich in all elements.

Formulas to Use.

Having determined the general nature of the soil, the formulas given below will meet the requirements of good sandy loam. In purchasing fertilizer remember part of the nitrogen should be in the form of nitrate or nitrite, which becomes immediately available, and part should be in the form of organic nitrogen, such as

Crop	Formula	Pounds
Asparagus	4-8-10	75
Beans	2-8-10	50
Beets	4-8-12	62
Cabbage (early)	6-8-10	90
Cabbage (late)	4-8-10	62
Celery	15-8-7.5	90
Onions	4-8-11	30
Lettuces	4-8-10	62
Peas	6-7-10	62
Potatoes	2-8-10	30
Squash and pumpkins	4-8-8	42

These elements provide plant food to start crops and feed them through the season. To use this table remember commercial fertilizers are sold on a percentage basis (that is 4-8-10 means 4 per cent actual nitrogen, 8 per cent actual phosphoric acid and 10 per cent actual potash. So from a 250 bag of potash containing 51 per cent actual potash, 51 per cent of 250 pounds is 127 pounds. The 4-8-10 calls for 10 per cent actual potash or 19 per cent of 122 pounds, which is 12.2 pounds. In feeding plants barrow in to the soil part of the fertilizer to be used and then after the plants are up spread a bit more between the rows and work it into the soil with the cultivator. This is especially true of nitrate of soda.

## CONSERVATION OF SOIL MOISTURE.

Preventing Drought by Cultivation  
W. H. STEVENSON

From 275 to 600 tons of water are required to produce one ton of dry matter for most of our common farm crops. In many portions of the United States the rainfall during the growing months is not sufficient to supply these large amounts of water to the crops. This fact has a direct upon two things—namely, the importance of large water supplies in the soil not as stagnant water, but as capillary water, which is for the most part available for growing plants, and also the importance of the conservation of this soil water.

The first step in conserving soil moisture is to have and keep the surface of the soil in such condition that most of the rainfall will be received into it and will be carried by gravitation to the lower zones, where the water supply is held until later called into use. Whenever the surface of the soil is baked or run together and impervious it is practically certain that a large portion of every rain will not get into the soil, but is lost because of surface drainage. An effort should be made to hold the rains of the entire year, those of the fall and winter and early spring as well as those of the growing season. In order to accomplish this the surface of the soil must be kept loose and open so that as rapidly as rain falls it may be taken into the upper soil, from whence it can work downward to the great storehouse beneath.

## Fall Plowing Helps.

Fall plowing helps to put the surface in condition to take up the rainfall. The hardened crust is broken, and water enters freely. Moreover, the ridges and furrows of the plowed surface act as basins, which hold snow and rain until they soak into the soil. Early spring plowing and disk also play an important part in putting the surface soil in condition to retain and take in a maximum amount of water.

The second step in soil moisture conservation is to save the water which has entered the soil. This can best be done by cultivation. The reason is this—water is carried from the lower zones of the soil by capillary. It rises in the soil from soil particles to soil particles, and finally it reaches the surface of the soil and is lost by evaporation unless the upward movement is checked by some agency. Now cultivation creates this agency—namely, a soil mulch. The principle of

## SEEDS IN APRIL

Plant Only Real Live Ones and Keep Them Growing

Good seeds to grow should be pure or free from other kinds of seeds, be true to name and possess the greatest possible longevity. Testing seeds is in itself interesting, but few have the time for it, and therefore we should use care in buying only from the reliable seed houses. Corn, however, should be tested in order to avoid loss from low vitality and thus having to replant. Testing seeds is a simple matter, and many use the pastboard Allen out of egg crates to do it, these being filled with damp sand, then a germ of corn is placed in each and covered with sand, afterwards being watered thoroughly with lukewarm water; a piece of damp cotton cloth is then laid over the tester until the seeds sprout, which is in about five days. If the seed is good about 85 per cent should germinate.

## Sowing the Seeds

The two requisites for the germination of seeds are a congenial temperature and a continuous supply of moisture. The gardener has little to say about temperature, but the moisture question can be controlled by the use of the roller or the feet, providing one does not use a seed drill having a small roller attached. Peter Henderson in his book, "Gardening for Profit," devotes a whole chapter to the use of the feet in planting. For example, plant two rows of melons where the soil is dry and press down firmly with the feet over one row, smoothing the other row with a rake, and note the difference. The radishes which have been tramped down are able to get moisture by capillary attraction, while the others suffer for want of it.

In sowing seeds that start slowly, as potatoes, celery, etc., it is well to sow with them a few strong quick germinating seeds.

## NO'RE DAME LADY'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia, pains to write to her for a home treatment which has repeatedly cured all of these troubles. She feels it her duty to send it to all sufferers there. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box R. Nairo Dame.

Planting seeds to break the crust and mark the rows so that cultivation may begin early. Frequently a crop of radishes may be grown this way before the main crop takes up the land. The following vegetables may be planted as soon as the soil is fit to work.

Asparagus, one ounce for 50 feet; broad beans, one quart for 100 feet; beets, one ounce for 50 feet; Brussels sprouts, one ounce for 2,000 plants; carrots, one ounce for 100 feet; celery, one ounce for 2,000 plants; Swiss chard, one ounce for 50 feet; lettuce, one ounce for 100 feet; onions, one ounce for 100 feet; peas, one quart for 100 feet; potatoes, one peck for 100 hills.

Many of our vegetable seeds do well when transplanted and those may be started in boxes in the house or under glass or in a nursery row.

Albert J. Wood, who has been visiting his parents, Mr. and Mrs. George A. Wood of Broad street, for the past month, left today for Chicago to resume his duties with the Western Electric Company.

## Some Things We Can Do

My desire is to see how much—not how little—we can give our customers for their money.

Don't interpret this as a fine burst of philanthropy. It isn't. It's plain, common sense business, because a satisfied customer is the best possible advertisement.

Every telephone becomes a part of the universal Bell System the moment it is installed. The service that may be afforded a subscriber, however, is largely dependent upon his knowledge of its varied possibilities. We can only suggest some of these, leaving to him the privilege of availing himself of them.

Does he know how to make an Emergency Fire Call or an Emergency Call for Physicians?

Does he know what we are glad to do in the way of emergency installations in cases of quarantined illness?

Does he know how to make Two Number Toll Calls as distinguished from other toll calls?

Does he know what we will do to help forward an urgent message relative to sickness or death?

Does he know we will try to get a message to a person whose full address is unknown to him?

Does he know what our Pay Station service can do in reaching non-subscribers by messenger?

If, perchance, the reader does not know of these possibilities, I wish he would pay me a visit. I may be able to make his telephone much more valuable to him, and perhaps without one cent of additional cost.

E. H. DREW, Manager.

# At The Churches

**Court Street Christian Church**  
Rev. Percy Warren Caswell pastor.  
Morning worship with sermon by the pastor at 10.30. Subject, "A Silent Discipline".  
Bible School session at 11.45 o'clock.  
Onward Class meets at same hour.  
Prayer and Social service at 7.30.  
Short talk by the pastor Subject, "The Car of Salvation."  
Mid week church prayer meeting Wednesday evening at 7.30 o'clock.

**Middle Street Baptist Church**  
Morning service at 10.30. The pastor will speak upon "Christ's Comprehensive Program for Life."  
Sunday School at noon in the chapel.  
Hearty singing. Brief discussion.  
Service under the auspices of the Y. M. C. A. at 6.00 p. m. to which all churches have been invited. Seats will be reserved for delegates to the Y. M. C. A. conference Address by David H. Porter of New York City. Special music. The public is invited.  
On account of this service there will be no service at 7.30 p. m.  
Tuesday 7.45 p. m. Y. P. S. C. E. in the Guild Room.  
Thursday 7.15 p. m. Girls' Guild in the Guild room.  
Thursday 7.20 p. m. Business meeting of the Men's Class in the parlor.  
Friday 7.45 p. m. Prayer meeting in the chapel.

**Universalist Church**  
G. C. Boorn pastor.  
10.30 a. m., Morning worship with preaching by the pastor.  
12m Sunday School. Stereopticon views of the last days of Jesus.  
7.30 p. m. Stereopticon lecture on "Easter in Modern Jerusalem".  
Tuesday, Junior meeting as usual at the close of school.  
Lenten service in vestry Wednesday evening at 7.30. Sermon by Rev. F. W. Whipple of Kingston.

**First Church of Christ Scientist No. 2 Market Street.**  
Services: Sunday morning at 10.30 and Wednesday evening at 7.45. All are welcome. Subject for March 29, "Matter".  
Sunday School at 11.50.  
A free reading room is maintained at the same address where Christian Science literature may be read or procured. Open to the public daily except Sundays and holidays from 2 to 4 p. m.

**St. John's Church**  
95th Sunday in Lent.  
8.00 a. m. Holy Communion, church 10.30 a. m. Morning Prayer, church Sermon by the rector, Rev. Harold M. Tolson.  
10.45 a. m. Kindergarten of the Church School, chapel.  
12.00 noon The Primary, Junior and Senior Departments of the Church School will meet in the chapel.  
Graded Curriculum Source method.  
4.00 p. m. Monthly Children's service and catechizing, church.  
7.30 p. m. Evening service in the chapel.

**Week Day Lenten Services**  
5.00 p. m. daily except Thursdays in the chapel.

OFFICERS—Calvin Page, Pres.; Joseph O. Hobbs, Vice Pres.; Al. Fred F. Howard, Sec.; John W. Emery, Asst. Sec.

Special music will be rendered by

10.30 a. m. Thursday, Holy Communion, chapel.

7.30 p. m. Tuesday, Women's Auxiliary, chapel.

2.30 p. m. Tuesday, Women's Auxiliary, chapel.

7.30 p. m. Tuesday, Young Men's Guild, chapel.

7.30 p. m. Wednesday, Young Ladies Guild, chapel.

8.00 p. m. Wednesday Monthly meeting of the vestry.

3.00 p. m. Saturday, Junior Auxiliary, chapel.

**Pearl Street Free Baptist Church**  
Rev. Edwin P. Moulton pastor.

10.30 Preaching by the pastor.

11.45 Bible School.

7.30 Illustrated talk on Bunyan's Pilgrim's Progress.

Mid week prayer meeting Friday evening at 7.30.

**First Methodist Episcopal Church Miller Avenue.**

Lyle L. Galtner pastor.

Junior League 9.30 a. m.

Morning worship 10.30 a. m.

Sunday School 12.00 m.

Epworth League 6.30 p. m.

Evening service 7.30.

Subject of Sunday morning's sermon: "With Desire Have I Desired".

Evening subject: "Fountains or Cisterns".

Monday evening at half past seven the Epworth League will meet in the vestry in business session.

The New Hampshire Annual Conference will meet in this church beginning Wednesday morning. Watch the papers for program. The general public is invited to all of the sessions.

**People's Baptist Church**  
Rev. John L. Davis minister.

11 a. m. Sermon by pastor Davis. Subject: "A Father's Warning".

12 noon Sunday School in charge of Supt. H. B. Burton.

3.30 p. m. Missionary meeting under the auspices of the H. and F. Missionary Society. Miss Laura Whitehouse president.

7.15 p. m. Christian Endeavor.

8 p. m. Sermon by pastor Davis. Subject: "An Open Door of Opportunity".

**North Congregational Church**  
Morning worship at half past ten o'clock with preaching by the pastor.

Sunday school in the chapel at the noon hour.

The Vesper service and Young People's meeting will be omitted in order to unite in the service held in the Baptist church at six o'clock, under the auspices of the Y. M. C. A.

The fourth organ recital will be held in the church on Friday evening April 3.

**Unitarian Church**  
Morning service at 10.30. Preaching by Rev. Alfred Gooding.

Sunday School at the chapel on Court street at noon.

The choir will render the following musical numbers:

The Lord is My Light. Parker.

Almighty One. Morrison.

Lo, It Is I. Shelley.

**1st M. E. Church, North Kittery**  
Preaching 10.45 by Rev. Campbell.

Sunday School 12. Mrs. Hattie Pierce, Supt.

Epworth League 6.30.

Preaching 7.00, Rev. Campbell.

Monday evening at 7.00 o'clock is the time for the banquet. Mr. D. Stanley Evans of Portland and Rev. Clarence LaRue pastor of the Congregational church, North Hampton, are the speakers. Apply for tickets. 40c each. Some may be left.

**Christ Church**  
Passion Sunday.

Services: Holy Eucharist 7.30 a. m. Holy Eucharist and Sermon 10.30 a. m. Sunday School and Bible Classes 12 m. Evensong, Story of the Cross and Sermon, 7.30 p. m.

The Recluse will preach both morning and evening.

Music at 10.30 a. m.

Processional, "We Sing the Praise of Him Who Died for Ancient Melody Music of the Mass. ... Crucifixion Offertory, "O Saviour of the World" ... Processional "Stabat Mater" ...

French Melody

Monday, Lenten Service 7.30 p. m. Sermon by Rev. Roy Royce Gibson.

Church of Our Saviour, Milford, N. H. Chapter meeting of the Senior Brotherhood after the service.

Tuesday, Holy Eucharist 7.30 a. m. St. Peter's W. A. 2.00 p. m. Junior Auxiliary 7.30 p. m.

Wednesday, Holy Eucharist 7.30 p. m. Choir Rehearsal 7.30 p. m.

Thursday, Holy Eucharist 7.30 a. m. Evensong and Sermon 7.30 p. m.

Friday, Holy Eucharist 7.30 a. m. Service and Address 7.30 p. m.

**Advent Christian Church**  
Rev. L. F. Barnes pastor.

Social service at 10.30 a. m.

Sunday School at 12.00 m.

Preaching at 2.30 p. m. by the pastor. Subject, "Whose Son was Jesus Christ, the Son of God or the Son of Joseph?" Was Jesus Divine?

Children's meeting at 6.00 p. m.

Loyal Workers meeting at 6.00 p. m.

Praise service at 7.45 p. m. followed by preaching by the pastor at 7.30. Subject: "What Jesus Could See While Hanging upon the Cross."

Old time Song Service.

Special music will be rendered by

Read the Year's Ago.

The male voices in the evening service.  
Prayer meetings Tuesday and Friday evenings at 7.30.  
All are welcome to these services.  
The annual business meeting of the church will be held on the first Monday evening in April (April 6, '14) at 7.30 p. m.

## BOWLING

**Arcade Alleys**  
There were new pins up for the roll off on Friday evening, the result, lower scores. Clint Kingsbury won first money with 293, and Paul got in second with 292. The scores:

Clint Kingsbury	293
Paul	292
Carr	287
Barney	282
Fisher	272
White	264
Reaner	264
F. Fernald	261
Mitchell	258
Burch	258
G. Fernald	258
Cutter	249
Sullivan	248
R. Adams	248
W. Fernald	239
Linsley	239
G. Fernald	239
Grant	226
Cano	223
Farley	219

## BASKETBALL

A Y. M. C. A. picked team went to South Berwick on Friday evening and were defeated by the Home Theatre team by the score of 34 to 24. The local boys had never played together and were easy for the Berwick boys.

**Class Games at Y. M. C. A.**  
There were two games at the Y. M. C. A. gymnasium on Friday afternoon. The Freshmen sprang a surprise on the Sophomores and won the game 26 to 20.

Butler played a fast game, shooting 6 baskets.

The score:

Freshmen	Sophomores
Butler 17	16, Richardson
Mulholland 17	16, Davis
Clark 6	6, Craig
Meadow 10	10, H. Willey
Phinney 10	10, Bennett
Holberg 10	10, Pickering

Score, Freshmen 26, Sophomores 20. Goals from Butler 6, Mulholland 4, Clark, Akerman 5, Craig 3, Davis. Goals from foun, Butler 2, Mulholland 2, Referee, Billings, Turner, Shillaber and Scorer, Pickering.

**Champions in Practice Game**  
The Wenehusa team defeated a picked team from the high school on Friday afternoon. The Wenehusa are to play here next Wednesday and at this time it means to try and get back the championship title. The line up:

Wenehusa	Picked Team
Brackett 10	10, Thomas
Badger 10	10, Smith
Newton 10	10, Homan
Mugridge 10	10, Shannon
Hassett 10	10, Hollans
Butler 10	10, Thomas

Score: Wenehusa 33, All Stars 10. Goals from Butler, Newton 3, Mugridge 10, Brackett 4, Badger 3, Homan 2, Shannon 2, Thomas.

## EAT ORANGES

Advice Given by Dr. Willey Who Says They are Better Than Medicine

Dr. Harvey W. Willey former chief of the bureau of chemistry of the department of agriculture, and universally admitted to be one of the greatest authorities on pure foods and dietetics in the world says: "Eat oranges; eat them in winter, eat them in summer; eat as many as you can afford to buy; they are better for you than physic."

In an interview Dr. Willey says: "Oranges are excellent for people. It is good to eat oranges for breakfast, and also for dinner—not from a medical, but an anti-medical standpoint. Both oranges and lemons ought to be used as freely as the financial ability of the consumer may permit. A laboring man may not always be able to eat oranges at breakfast yet the food is very cheap and the consumption of it will obviate the need of physic, and save many a doctor's bill."

"Note that I do not say 'eat an orange for breakfast,' but eat oranges. Even if in straitened circumstances, people should eat plenty of oranges and lemons not only in the summer time but all the time. I don't think anything I ever knew said in praise of a fruit diet is too strong to say about oranges and lemons. The abundant production of oranges and lemons in California, their excellent quality and the cheap transportation across the country, have put these blessings to mankind within reach of every person of moderate circumstances."

People ask sometimes whether oranges should be eaten at the beginning or end of a meal. It is better to eat oranges first; the effect cannot be so good after one has partaken of other food."

## IRON WIRE MUST GO

About two miles of copper wire has already been put in the fire alarm system. The system covers between 25 and 30 miles in all and it is the plan to replace all the old iron wire by copper as fast as possible.

Read the Year's Ago.

## LARGE ATTENDANCE AT ORGAN RECITAL

The North church was again crowded on Friday evening, despite the disagreeable weather and the large audience were delighted with the very excellent organ recital program rendered by Mr. John Herman Lund, F. A. G. O., organist and Miss Susan E. Bothwick soprano.

The recital was one of the series being given during the Lenten season and they all have been very largely attended, and the programs very fine.

Mr. Lund (the artist of last evening's program) is one of the noted organists of the country and his program of last evening was very well rendered.

Miss Bothwick was in excellent voice and her selections last evening were finely rendered. The program:

Pastoral Sonata, Opus 88, Lieberberger

(a) Pastoral.

(b) Intermezzo.

(c) Pique.

Andante Congrazia, Hardbeck

Aria—I Will Extol Thee, O Lord, (Ch.) Costa

Fugue in G minor, Bach

Andante (5th Symphony), Beethoven

Offertory in F (manuscript)

John Herman Lund

Aria—Jerusalem, thou hast killed the prophets. (St. Paul)

Mendelssohn

Scherzo Symphonique, Gullmuth

In the midst of the battle I turned, Lindsay

Improvisation—"The Son of God goes forth to war."

Grand Chœur (Grand Piece Symphonique) Franck

**PROBATE COURT—LOUIS G. HOYT**

JUDGE; ROBERT SCOTT, REGISTER.

The following business was transacted at the probate court held in Exeter Tuesday:

**Wills Proved.**—Of George E. Bailey, Kingston, Sarah E. Bailey, executrix; John L. B. Thompson, Hampton, John L. Thompson, Salisbury, Mass., executor, with Thomas Leavitt, Hampton, agent; Sarah C. Clark, Exeter, John W. Clark, executor; Benjamin P. Swasey, Exeter, Ambrose Swasey, Cleveland, Ohio, executor, with Percy Gardner, Exeter, agent; Benjamin J. White, Exeter, Samuel H. White, Nashua, executor; John N. Marston, Hampton, Elmer J. Smith, executor; Isaac S. Noyes, Atholton, Maria J. A. Noyes, alias Jennie Noyes, executrix; Mary J. Lovejoy, Salem, Clarence A. Lovejoy, Haverhill, Mass., executrix, with Mary J. Lovejoy, Salem, agent; Joseph J. Jennings, Rye, Ardelle G. Marden, and Horton D. Marden executrices; James M. Kimball, Danville, Merinda B. Kimball, executrix; Eva D. Taylor, North Hampton, Edward J. Taylor, executor; Andrew J. Bagley, Danville, Wallace Keezer, executor; Joseph H. Brown, Hampton Falls, Forest F. Brown, executor; Henrietta E. Chase, Salem, Fred W. Maxwell, executor; Ellen P. Hooke, Fremont, Lyman S. Hooke, administrator, c. t. a.; Hannah W. Webster, Kingston, Joseph S. Huth, administrator, c. t. a. Foreign Wills Filed.—Of Joseph F. Wiggins, Malden, Mass.; Darius G. Crosby, New York, N. Y.

**Administration Granted.**—In estates of Edwin S. Carpenter, Newmarket, Laura B. Carpenter, administratrix; Calveina S. Brown, Rye, Carrie B. Collie, administratrix; James M. Caswell, Newmarket, Herbert J. Caswell, Plymouth, Mass., administrator; with Irving T. George, Newmarket, agent; Sarah Powell, Salem, Josephian Houston, administratrix; John L. BY HOF

## FIELD MARSHAL WILL AGREE TO REMAIN

London, March 27.—The resignation of Field Marshal Sir John French and Lieut. Gen. Sir John Spencer Ewart have not yet been withdrawn, and Premier Asquith, after deferring his statement twice, was able only to announce in the House of Commons this afternoon that the Government still was awaiting the reply of the army officers to the Cabinet's request that they remain in their posts.

Premier Asquith reached the House of Commons straight from the second Cabinet meeting held today, both of which were attended by the chief of the general staff, Field Marshal Sir John French. The Premier said matters in question involved great complexity and difficulty, and seemed to the Government to require very full consideration. A partial or provisional statement would be unsatisfactory.

Sir John French and Lieut. Gen. Sir John S. Ewart the adjutant general of the forces, had intimated a wish to be relieved of their offices, Mr. Asquith said, not because of any differences between their views and those of the Government, about the conditions under which the army should be employed in the aid of civil power, but, having issued the memorandum to Brig. Gen. Gough and the

other officers of the 3d Cavalry Brigade at the Curragh, they thought this course incumbent upon them.

### "A Genuine Misconception."

"Mr. Asquith then added: 'The Government has conveyed to them its wish that, as there is no difference of opinion on any ground or policy, they should not persist in their request, the carrying out of which the Government would regard as a serious misfortune to both the army and the state. We still are awaiting their final reply.'

"These two gallant officers believe that in the circumstances they were justified in believing their action was in accordance with the instructions of the Cabinet and that they were transmitting those directions to the officers concerned."

"It is clear to us and to them that there has been a misconception—a genuine misconception—in regard to the intention and purport of the proceedings in Ireland, out of which these difficulties have arisen."

"In view of these misconceptions and to obviate the possibility of their recurrence in the future, the army Council has today—Field Marshal Sir John French and Lieut. Gen. Sir John Ewart being present—unanimously determined to issue a new army order."

## VILLA HAS TAKEN GOMEZ' PALACIO

Constitutional Headquarters above (center) Gen. Villa and his Rebel army. March 27.—(Delayed by my after four days of almost incessant fighting during which victory seemed first with one side and then with the other, occupied Gomez Palacio today.

Losses on both sides have been heavy.

The Rebels delivered three assaults before permanent success was achieved, and at times the battle extended into the leading streets of Torreon proper.

Villa predicts that he will have the latter city by Saturday or Sunday.

### LONG FIGHT FOR LERDO

Federals Failed to Retake Town, Villa Says—Rebel Sends Two Messengers From Gomez Palacio.

Juarez, Mex., March 27.—The Federal soldiers at Torreon failed last night in a 12-hour fight to retake Lerdo, according to a telegram received here today, signed Gen. Villa. The telegram was dated Gomez Palacio, Lerdo is a manufacturing town in the suburbs of Torreon.

Another brief message came from Villa himself. It was curt and contained a command for speedy shipment of the military monoplane from Juarez, and an order that an equipment for rebuilding railroad tracks be hurried south. The fact that the messages were sent from Gomez Palacio first showed that the Rebel leader had captured that suburb of Torreon.

That Villa had ordered the monoplane was construed by some to mean that he was to begin his attack on Torreon proper in the immediate future, and that he had met unexpected conditions to surmount.

The machine has been undergoing repairs here, and early today it was not known how soon it could be put in running order, but Manuel Chao, military governor of Chihuahua last night gave his personal supervision to the work of expediting its shipment to the front.

The truck equipment demanded will be shipped from both Chihuahua City and Juarez. The order for the equipment was thought by Chao to have meant that Villa had met far more stubborn resistance in his attack upon Torreon than he had expected and that he wished to have apparatus to repair his railway immediately at hand, so that he might remain away from his base at Chihuahua for as long a time as possible.

### "REBELS DEFEATED"

Washington, March 27.—The Mexican Embassy today received the following dispatch from the Mexican consul, Senor Diebold, at El Paso:

"Rebels have been severely defeated at Torreon. A column of 5000 troops under Gen. Moore has left Saltillo in flanking movement to reinforce the garrison. The Rebels last week also suffered a severe repulse at Monclova, losing over 1000 men, as well as at Artega, where the losses were over 100."

## B. F. KEITH DIES SUDDENLY

Palm Beach, Fla., March 27.—On the 20th anniversary of the opening of his Boston house, which was being celebrated yesterday in this city, B. F. Keith, owner of the theatre circuit bearing his name, dropped dead at midnight in the Breakers Hotel here, where he was stopping with his wife and A. Paul Keith, his son. Death was due to valvular heart trouble and was instantaneous.

Mr. Keith was in his room discussing the growth of vaudeville from the time he started the circuit in 1883. Life soon suggested that he rest and continue the conversation in the morning, then stepping from the room when he returned his father was dead.

Dr. J. Foster Bush of Boston, an old personal friend and family physician, was in an adjoining room. Dr. Owen Kenan was attending the case. Mr. Keith went for a wheel chair ride Wednesday with Frank Daniels, and the day previous with E. F. Albee, his general manager, now in St. Augustine. Others of his personal friends here were Mr. and Mrs. Walter P. Cook of Buffalo.

A Paul Keith will start for Boston with the body this morning. The funeral there will be private.

### SIMPLE CARE OF CHICKS

Economy in Raising Them.  
DR. SANBORN, Holden, Mass.

There is less fuss in rearing of chicks than a few years ago. A warm brooder some fine litter, cracked grain and grit, with perhaps a mash containing ground grain and animal food and you should raise 90 per cent of the chicks.

Every chick deserves to be well hatched of sturdy ancestry and properly reared. The eggs should be from carefully selected stock, well housed and fed, to produce chicks that stand adverse conditions. The hen or incubator should do its part well, as many a slip is made between the laying of the egg and the hatching of the chick.

I prefer the lamp heated brooder to either the hen or the heatless brooder, for while some hens do good brooding and in some seasons you can raise good chicks with the fireless brooder, yet for easy, successful brooding of fifty chicks my preference is for the heated brooder.

The chicks, when dry, are taken from the hen or machine and transferred to the well warmed brooder. I prefer it should be fully as warm under the cover as was the incubator then, if too hot, the chicks can be spread out into the less warm part of the brooder floor, or if any hour the temperature drops the chicks can be taken to a warmer place under the heater.

### What To Feed Them.

At the start the chicks get cool water to drink and only the food that is in the barn waste used to cover the brooder floor. Really they need no food, and what they find in the waste is plenty. When a few days old they need light feeding of cracked wheat, good fish or beef scrap (especially I have found nothing better than a good grade of fish scrap) added at eight days of age and finely cracked, dry corn at ten to twelve days. It is important that all chick feed be sound, sweet and clean. Avoid musty corn, scrap that is fit only for fertilizer and stale drinking water. Unless there is some grit in the barn waste that is used for brooder floor it should be supplied. Chicks need a warm place to retire to when cold, an open room to get out into and exercise, as well as a grass run to range over when two weeks old. Close confinement to hot brooders tends to give leg weakness. As the chicks grow in age the heat of the brooder can be reduced to about 80 degrees. Too many chicks are hatched that are doomed to die because from weak stock or incubated wrongly, but the blame is usually laid on the brooder. Venting hens make the best of breeders, better than pullets, and are in their prime through March and April, which is the time for hatching.

### STOCKING UP WITH PLANT FOOD

Buy Your Fertilizer Intelligently.  
E. K. PARKINSON

In buying commercial fertilizer do not be guided wholly by a chemical analysis of the crop to be fertilized. Soils differ widely and may be deep or shallow, sandy or loamy, containing liberal supplies of plant food which could be brought into use by deep plowing and thorough cultivation, or perhaps markedly lacking in plant foods. First, then, you must know something of the character of your soil, and you may usually count on sandy and gravelly soils being poor in potash and phosphoric acid; clay soils usually rich in potash and poor in lime and phosphoric acid; limestone soils rich in that element and phosphoric acid and clay in potash, while soils containing lead mud or other kinds of vegetable matter are usually rich in all elements.

Formulas to Use.  
Having determined the general nature of the soil, the formulas given below will meet the requirements of good sandy loam. In purchasing fertilizer remember part of the nitrogen should be in the form of nitrate of soda, which becomes immediately available, and part should be in the form of organic nitrogen, such as

hankage, dried blood, or dry ground fish, which is not immediately available, while part of the phosphoric acid should be soluble as acid phosphate and part insoluble, such as ground bone. South Carolina rock or Tennessee rock. (These formulas may be had from the salesmen.)

Crop	Formula	Pounds
Asparagus	4-8-10	75
Bonnie	6-8-10	50
Beets	4-8-12	62
Cabbage (early)	6-8-10	50
Cabbage (late)	4-8-10	62
Celery	4-8-7-5	90
Corn	4-8-11	30
Lettuce	6-8-10	62
Onions	6-7-10	62
Peas	2-8-10	30
Potatoes	4-8-10	50
Squash and pumpkins	4-8-8	62

These elements provide plant food to start crops and feed them through the season. To use this table remember commercial fertilizers are sold on a percentage basis thus: 4-8-10 means 4 per cent actual nitrogen, 8 per cent actual phosphoric acid and 10 per cent potash. So from a 200 bag of potash containing 51 per cent actual potash, 51 per cent of 200 pounds is 102 pounds. The 4-8-10 calls for 10 per cent actual potash or 10 per cent of 102 pounds, which is 10.2 pounds. In feeding plants borrow 10 to the soil part of the fertilizer to be used and then after the plants are up spread a bit more between the rows and work it into the soil with the cultivator. This is especially true of nitrate of soda.

### CONSERVATION OF SOIL MOISTURE.

Preventing Drought by Cultivation.  
W. H. STEVENSON

From 275 to 600 tons of water are required to produce one ton of dry matter for most of our common farm crops. In many portions of the United States the rainfall during the growing months is not sufficient to supply these large amounts of water to the crops. This fact has great stress on two things—namely, the importance of large water supplies in the soil not as stagnant water, but as capillary water, which is for the most part available for growing plants; and also the importance of the conservation of this soil water.

The first step in conserving soil moisture is to have and keep the surface of the soil in such condition that most of the rainfall will be received into it and will be carried by gravitation to the lower zones, where the water supply is held until later called into use. Whenever the surface of the soil is baked or run together long impervious it is practically certain that a large portion of every rain will not get into the soil, but is lost because of surface drainage. An effort should be made to hold the rains of the entire year, those of the fall and winter and early spring as well as those of the growing season. In order to accomplish this the surface of the soil must be kept loose and open so that as rapidly as rain falls it may be taken into the upper soil from whence it can work downward to the great storehouse beneath.

### Fall Plowing Helps.

Fall plowing helps to put the surface in condition to take up the rainfall. The hardened crust is broken, and water enters freely. Moreover, the ridges and hollows of the plowed surface act as basins, which hold snow and rain until they soak into the soil. Early spring plowing and disk also play an important part in putting the surface soil in condition to retain and take in a maximum amount of water.

The second step in soil moisture conservation is to save the water which has entered the soil. This can best be done by cultivation. The reason is this—water is carried from the lower zones of the soil by capillarity. It rises in the soil from soil particle to soil particle, and finally it reaches the surface of the soil and is lost by evaporation unless the upward movement is checked by some agency. Now cultivation creates this agency—namely, a soil mulch. The principle of

moisture conservation by mulches is well established. There is no practical method for saving soil moisture except by the use of the mulch.

### SEEDS IN APRIL

Plant Only Real Live Ones and Keep Them Growing

Good seeds to grow should be pure or free from other kinds of seeds, be true to name and possess the greatest possible longevity. Testing seeds is in itself interesting, but few have the time for it, and therefore we should use care in buying only from the reliable seed houses. Corn, however, should be tested in order to avoid loss from low vitality and thus having to replant. Testing seeds isn't a simple matter, and many use the mechanical testers out of egg crates to do it, these being filled with damp sand, then a germ of corn is placed in each and covered with sand, afterward being watered thoroughly with lukewarm water; a piece of damp cotton cloth is then laid over the tester until the seeds sprout, which is in about five days. If the seed is good about 85 per cent should germinate.

### Sowing the Seeds

The two requisites for the germination of seeds are a congenial temperature and a continuous supply of moisture. The gardener has little to say about temperature, but the moisture question can be controlled by the use of the roller or the feet, providing one does not use a seed drill having a small roller attached. Peter Henderson in his book, "Gardening for Profit," devotes a whole chapter to the use of the feet in planting. For example, plant two rows of mulches where the soil is dry and press down firmly with the feet over one row, smoothing the other row with a rake, and note the difference. The radishes which have been tramped down are able to get moisture by capillary attraction, while the others suffer for want of it.

In sowing seeds that start slowly, as parsnips, celery, etc., it is well to sow with them a few strong quick germin-

### NO RE DAME LADY'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia, palms, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box R, Notre Dame.

Nothing seeds to break the crust and mark the rows so that cultivation may begin early. Frequently a crop of radishes may be grown this way before the main crop takes up the land. The following vegetables may be planted as soon as the soil is fit to work.

Asparagus, one ounce for 50 feet; broad beans, one quart for 100 feet; beets, one ounce for 50 feet; Brussels sprouts, one ounce for 2,000 plants; carrots, one ounce to 100 feet; celery, one ounce for 2,000 plants; Swiss chard, one ounce for 50 feet; lettuce, one ounce for 100 feet; onions, one ounce for 100 feet; peas, one quart for 100 feet; potatoes, one peck for 100 hills.

Many of our vegetable seeds do well when transplanted and these may be started in boxes in the house or under glass or in a nursery row.

Albert J. Wood, who has been visiting his parents, Mr. and Mrs. George A. Wood of Broad street, for the past month, left today for Chicago to resume his duties with the Western Electric Company.

## Some Things We Can Do

My desire is to see how much—not how little—we can give our customers for their money.

Don't interpret this as a fine burst of philanthropy. It isn't. It's plain, common sense business, because a satisfied customer is the best possible advertisement.

Every telephone becomes a part of the universal Bell System the moment it is installed. The service that may be afforded a subscriber, however, is largely dependent upon his knowledge of its varied possibilities. We can only suggest some of these, leaving to him the privilege of availing himself of them.

Does he know how to make an Emergency Fire Call or an Emergency Call for Physicians?

Does he know what we are glad to do in the way of emergency installations in cases of quarantined illness?

Does he know how to make Two Number Toll Calls as distinguished from other toll calls?

Does he know what we will do to help forward an urgent message relative to sickness or death?

Does he know how we will try to get a message to a person whose full address is unknown to him?

Does he know what our Pay Station service can do in reaching non-subscribers by messenger?

If, perchance, the reader does not know of these possibilities, I wish he would pay me a visit. I may be able to make his telephone much more valuable to him, and perhaps without one cent of additional cost.

E. H. DREW, Manager.

## 'CYCLONE' BURNS GAINS DECISION

Wins Two Straight Falls in  
His Match With  
Gerhardt.

"Cyclone" Burns demonstrated beyond a doubt, last evening, at Mechanics' Building, Boston, before a large crowd, that he is a better wrestler than Franz Gerhardt at the catch-as-catch-can style. Burns won in straight falls, the first one being scored in 15 3/4 minutes, and the second in 30.

The first session was a hard struggle, and the spectators were on their feet many times cheering the work of the men. It was one of the cleverest wrestling matches here in a long time. About every hold known in the game was used. Finally, the Cyclone, after some clever feinting, got a reverse body grip on Gerhardt. The latter applied all the strength he had, but could not get away from it and was gradually forced to the mat.

Both men were tired from their exertions and the five minutes' rest did not help them much. Burns came back best and took the aggressive.

Burns put Gerhardt to the mat several times, but the latter squirmed out of danger. Finally, the Cyclone at last got an inside croch and front Nelson, and won the second fall and match. Faddy Hehir of Worcester and Billy LeClair kept time.

### PEOPLE'S OPINIONS

Editor Herald:—  
It is evident that the veteran firemen are going to meet some opposition from the men of the regular department in their attempt to secure the use of the old armory for a headquarters. No good reason for this animosity against the vets is given other than they are not wanted near the regulars. If this is so, the regulars are making a mistake. With the veterans close by in the armory they

could always be relied upon to catch the apparatus at the central station long before any of the call men could show up and be at the scene of fire to do timely work.

The city should take this into consideration when the vets make application for the armory and not forget what the veterans have done in the past at fires when the regular men were scarce.

B. NUFF.

Ballou Herald:—

The veteran firemen with an interest to become Portsmouth are attempting to arouse enough enthusiasm to hand the New England League Master in Portsmouth in September, next. I am surprised to hear from some of the veterans the manner in which not a few are treating the plan by throwing all the cold water possible on it. These parties engaged in the use of the hammer against the muster are the people who would derive the most benefit from the same. The days of knocking should pass if we are going to boost the old town.

BOOMER.

## "CASCARETS" CLEANSE LIVER AND BOWELS

Cure Sick Headache, Constipation,  
Biliousness, Sour Stomach, Bad  
Breath—Candy Cathartic

Get a ten cent box now.

Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing cathartic pills, or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headachy, bilious and constipated you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A ten cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little bodies need a gentle cleansing too.

### OBSEQUIES.

Mrs. Susan D. Jenkins

The remains of Mrs. Susan D. Jenkins arrived in this city this morning from Lynn and funeral services were held from the home of her daughter, Mrs. W. H. Smith, on Maplewood avenue at 2 p. m. Rev. W. P. Stanley conducted the services assisted by Rev. L. H. Thayer.

Members of Union Rebekah Lodge attended and held their services. Interment was in South cemetery in charge of Undertaker O. W. Ham.

Lynn William Tuttle

The funeral of Lynn William Tuttle was held from the home of his parents Mr. and Mrs. William H. Tuttle on Bennett street at 2 p. m. Rev. L. P. Barnes officiating. Interment was in South cemetery in charge of Undertaker O. W. Ham.

George F. Marston

The funeral of George F. Marston was held from his home in North Hampton at 2 p. m. today. Interment was in Central cemetery in charge of Undertaker O. W. Ham.

### OBITUARY.

Charles G. Marston.

Charles G. Marston, aged 78 years, one of the prominent residents of Hampton, died last evening at his home. He was a native of that town, the son of David and Sarah (Dearborn) Marston. He followed the vocation of a farmer. He is survived by a widow and one daughter, Mrs. Alva True.

Mr. Marston was a prominent member of the Congregational church, and was brother-in-law of Ambrose Swasey of Cleveland, O.

Mrs. Mary A. Wherren

Mrs. Mary A. Wherren aged 77 years, died this Saturday morning at her home at Bull Hill, Ehot. She was the daughter of Daniel W. and Mary (Bridges) Wherren and was a life long resident of the town.

## WILL ACT AS GUIDES

Young Men of Methodist  
Church Will Act in That  
Capacity During the  
Conference.

The boys and young men of high school age, of the local Methodist church, are planning to do their part in the work of entertaining the conference which begins here next Tuesday. Boys from 10 to about 18 years of age will act as guides during all the time the conference is in session. They will be on hand to welcome guests at trains, conduct them to the church and to their places of entertainment, tender courtesies to visitors, and lend assistance wherever it is needed. The boys are interested and it is certain that they will do their work efficiently. They will be much in evidence on our streets next week, each wearing a white badge with "Guide" lettered on it. The boys who will serve are: Guy Plasted, George Snook, Ralph Briddle, Sidney Jones, Cecil Cloutman, Archie Marshall, Chester Clough, Frank Snow, Fred Briddle, Lester Kellenbeck, Fred Clark, Stephen Catlin, Frank Marshall, Otto Pecunias, William Oliver, Clarence McIntire, Charles Moore, Harold Briddle, Fred Pearson, Porter McIntire, Frank Johnson, Parker Twombly, Eben Moore, Wilfred Gillespie, George Briddle, Clyde Lougee, Kenneth Noel.

## MASTS HAVE TO BE LOWERED

Brooklyn Bridge Halts the  
Superdreadnaught  
Texas.

New York, March 27.—The first opportunity to gauge the immensity of the new superdreadnaught Texas, the most powerful American battleship in commission, came to New Yorkers today, when the battleship slowed down like a disgruntled giant before the prohibitive gliders of Brooklyn bridge. Under these same gliders, which are 125 feet from the water level, the tallest sailing vessels had passed with space to spare, but the wireless poles of the Texas reared above the gliders at the centre of the bridge five feet.

One of the cheering crowd that gathered on the centre of the bridge could have jumped into the basket of the fire-control top without appreciable risk. Standing in this basket, the ship's flag officer signalled the pilot, upon the lowering of the wireless masts, that there was five feet of head room. The throbs of the battleship's engines became slower, cameras and motion picture machines clicked, there was a tooting from the pigmy craft below and the big battleship slid under the bridge.

The Texas, which came from Hampton roads to the Brooklyn Navy Yard for a final trimming, is 565 feet on the waterline, with a beam of 95 feet. At trials it showed a mean displacement of 27,000 tons. The vessel's lines suggest grace and speed.

True Today as Then.

His own character is the arbiter of every one's fortune.—Publius Syrus, 12 B. C.

Dr. Richards, professor of literature at New Hampshire college, and Mrs. Henry Webster of Brattleboro, Vt., are spending the week-end with Dr. and Mrs. Cowles of Middle street.

## It's Great to "Do Things"

But the doing power of both brain and body depends largely upon the right kind of food.

There are certain elements in the field grains that Nature uses to build a strong working body and brain.

## Grape-Nuts

Food

—made of wheat and barley, contains all these strength-making elements—including the vital mineral salts (Phosphate of Potash, etc.) particularly for the nerve centres and brain.

Grape-Nuts food tastes delicious, is easily digested and its power is proven by trial.

"There's a Reason" and a profound one for Grape-Nuts.  
—sold by Grocers.

### SALVATION ARMY SERVICES

Salvation Army, 262 State Street.

Sunday school at 2 p. m.

Special service at 3, when a thrilling lecture will be given by Captain Beech, subject, "The Punisher," from "Twelve Horn Men."

Salvation meeting at 7.30. Good music, singing, etc. Everybody welcome.

In the Library.

I never come into a library (saith Helmsius) but I bolt the door to me, excluding lust, ambition, avarice and all such vices whose nurse is idleness, the mother of ignorance and melancholy herself; and in the very lap of eternity, among so many divine souls, I take my seat with so lofty a spirit and sweet content that I pity all our great ones and rich men that know not their happiness.—Robert Burton.

Wonderful "Water Vine."

One of the wonders of the Guatemalan jungle is the "water vine," a black, snakelike, leafless stem, dropping from the ceiling and mahogany trees to which it has climbed. It is said to contain a quart of water to every foot. When the stem is cut the water spurts forth in a refreshing stream. Moisture is drawn up from the soil, and filtered through the pores of the plant.

His Comment.

"They say that women keep the wheels of commerce going." "Maybe so. Here's a woman's program when she buys anything: She opens a handbag, takes out a purse, opens the purse and takes out a coin, shuts the purse and opens the handbag, shuts the handbag and adjusts her veil. I think business would slump if a man had to do all that every time he made a five-cent purchase."

Cultivating Friendship.

If a man does not make new acquaintances as he advances through life he will soon find himself left alone. A man, sir, should keep his friendship in constant repair.—Samuel Johnson.

5 CONGRESS STREET

22 HIGH STREET

# REDUCE THE JUNK LICENSE FEE TO \$15

## Council, However, Fixes a String By Which Dealers Can Use Only One Cart for License--Other Work of Council.

A special meeting of the Mayor and Council, was held on Friday evening and two ordinances were amended and considerable other business disposed of.

Mayor Yeaton stated that the call was for the consideration of the junk licenses and an amendment to the ordinance governing the issuance of licenses was introduced and passed under a suspension of the rules.

The amendment reduces the price of a first class license from \$25 to \$15 and the second class from \$15 to \$10, but at the same time it makes a provision so that only one cart can be used to a license, whereas two carts have been used. An additional cart will mean another \$15, so that the amendment will cause some of the dealers to carry two licenses. This applies to men in partnership, who have been used to using two carts to do business, but now it will require two licenses.

A resolution authorizing the Mayor

and City Clerk to publish the ordinances as they are passed, in the local papers, as required by public statute was passed.

Several minor petitions were received and disposed of and Mayor Yeaton stated that a special form of permit was being worked out by the Board of Public Works, so that there would in the future be no opening of streets without at first getting a permit.

A letter from Councilman and Mrs. William E. Dowdell thanking the Mayor and Council for their gift of a chest of silver on the occasion of their silver wedding anniversary was read.

The report of the Clerk of the Street Sprinkling District, Mr. H. W. Peyer, was accepted. The district voted to raise \$3,500 for sprinkling.

Mayor Yeaton stated that there was considerable property which had been bought in by the city for taxes, and something should be done to straighten out these matters and he suggested a special committee. On motion of Councilman Herick the Mayor appointed a committee to make an investigation and report and the committee will be Councilmen Herick, Bathwick and Wood.

Adjourn.

### PUTTING THE NAVY TO WORK

The idea advanced by Senator Weeks of Massachusetts of using the fast cruisers of the navy for postal and communication purposes between New York and Valparaiso deserves attention. There is no service today on that line that is not subsidiary to selfish interests. With the Panama Canal almost ready for business, no plans have been made, so far as is known,

by Americans to engage in this trade.

It has always been customary to use the army in constructive work. The navy improves and protects our harbors. It has charge of river improvements. It has built the canal at Panama. It is to construct the new Government railroad in Alaska. Why should not the navy be employed as a pioneer on mail and trade routes which private enterprise ignores or will not undertake without a subsidy?

The life of a warship is short. Under present conditions it begins and ends with cruises for practice, or cruises for display or for pleasure. So far as naval efficiency is concerned, every one of our Dreadnoughts and cruisers would be no worse off five years hence if put to useful work than if devoted to the usual routine of frippery.

And this innovation need not mean national ownership of transportation lines. It could end when the necessity disappeared. It would serve as a stimulant for private enterprise and it would be an everlasting check upon sordidly beggary.—New York World.

### GIRLS' CLUB NOTES

The topic of the conversation in the trip to New York. The following is the outline of the convention in New York, May 14-17, 1914:

Thursday, a. m. Arrive in New York. Breakfast at hotel. See the city in automobile sight seeing cars. Lunch at hotel. Formal meeting 8 to 10:30 at Metropolitan hall. Speakers, music etc.

Friday See the sights with guides in squads of 15 to 25. Lunch at hotel. 2:30 Go to the top of Metropolitan Tower and see view. 3:30-5:30 Meeting at Metropolitan hall. Papers from clubs. Dinner at hotel. Ball at Armory. Armory 8:30-11:30 Tableaux and pageant to be given by New York Association.

Saturday Steamboat excursion to West Point; back by 5 p. m. Informal meeting with singing and dancing. Metropolitan hall.

Sunday, Cathedral, churches, parks, museums. Lunch and dinner at hotels. Train home.

In a recent number of "The Club Worker" published by the National League of Women Workers, appeared the following extract:

"The Portsmouth Girls' Club, the League's one New Hampshire member, is doing a fine thing for its members, which might easily be carried out by any city club with good, centrally located rooms. Two days a week they have luncheons served in the club rooms, practically at cost, for the girls whose work keeps them downtown at the noon hour. These luncheons have been very popular and have brought girls into the club who would not have come otherwise. The menu may be had of the club secretary, Miss Margaret Goodwin, if any one wishes to follow this example.

The regular monthly baked bean supper will be held at the club rooms this evening.

You never hear Herald advertisers complain of bad business.

## DOES NOT CONTEMPLATE REDUCTION

Washington, March 27.—Sec. Daniels informed Senator Weeks today that the Navy Department does not contemplate any reductions in the force at the Charlestown yard and he had been so informed by the Commandant at Charlestown. This contradicts a statement made to Congressman Murray by the chief of the Steam Engineering Bureau that 100 machinists were about to be laid off.

Ten firemen recently had been furloughed, said Sec. Daniels, and may be discharged, but he sees no further reduction in the near future, and adds that "prospects for work are good at Charlestown."

The Rhode Island is due at the yard on April 1 for three months of overhauling, and the Nebraska, Virginia and Georgia about April. On May 1 the destroyers Ammen, Burrows, Cassin, Cummings, Patterson, Paulding and Trippe are due at the yard for two months, and the destroyer Duncan later.

In all cases, said Sec. Daniels, he had instructed the commandant simply to furlough men when reduction in the force was necessary, rather than to discharge them. Finally, he expects the work on the supply ship "to eliminate the fluctuations in the labor situation at the Charlestown yard."

### REAL ESTATE CONVEYANCES— JOHN W. A. GREEN REGISTER

Following are the conveyances of real estate in the county of Rockingham recently recorded in the Registry of deeds:

Candia.—Milton H. Doremus, Lynnafield Mass., to Alpheus and Martha E. Doremus, Philadelphia, land and buildings, \$1.—William Clifford, Raymond, to George Clifford, land, \$1.—James G. Platts to Josiah Clifford, land, \$3.75.—James E. Dearborn to Thomas H. Clifford, land, \$25.—Chas. C. Parker, to last grantee, land \$1 last four deeds executed in 1843, 1851, 1900 and 1907.

Derry.—Annie P. Sanders to Eyn A. Dickey, land and buildings, \$1.

Londonderry.—James A. Hartford to Charles Frederick, land, \$1.

Salem.—Arthur B. Milloy to Lewis R. Soule, half certain premises, \$1.—Last grantee to last grantor, half cer-

tain premises, \$1.—Herbert A. Parker to George E. Whitney, Derry, land, \$1.

### GREENLAND

Mrs. George T. Vaughan of Portsmouth was in town on Tuesday.

Mrs. Ernest Holmes of Portsmouth was a visitor to Boston on Monday. George W. Lord's best horse, Gypsy has been incapacitated for rural delivery work this week on account of a sudden lameness in one of his hind feet. "Old Whitey" is on duty instead.

Mrs. Winsdell and daughter of Goffstown have been recent guests of the former's sister, Mrs. Lee Roy Babcock.

Miss Elizabeth Bennett of Waltham, Mass., is passing a week with her mother, Mrs. Clara Bennett.

Mrs. Emma Young of Portsmouth was a guest of the here on Sunday.

Mrs. Ella Lane went to Derry early last week to visit her cousin, Mrs. Helen Norton.

Mrs. Emma Perkins is caring for her mother Mrs. George A. Coleman during her experience of a fractured limb. Mr. Perkins drives over from North Hampton every night, returning to his work in the morning.

William Henry Brackett, of the state college, was at home for Sunday. He and his friend, John Taylor of Bellows Falls, Vt., are coming over today for a brief stay.

Miss Lucy B. Record returns today to resume her professional nursing in Woodsville and vicinity. She has been here two weeks, but her friends did not see her as much as they wished to. She will not come home again until July, when she hopes to take a month's vacation.

### DANGERS OF THE BATHTUB

According to Dr. Elmer Lee, writing in a current magazine, bathing is an acquired habit and like some other acquired habits unnecessary and even harmful. Cold or hot water showers, he tells us, sprays and any form of immersion will be injurious in the end. It is the doctor's contention that man is an air animal, not a water creature. "A bathtub is an enemy in the house," says this medical sage. "It is expensive and adds to the tolls of woman. Bathing begets false security against disease, weakens and injures the skin, extracts bodily energy and magnetism and entails on society a needless habit."

A good deal that isn't truth comes out of the mouths of medical men. So Elmer Lee suddenly perceives that man is not a water animal and straightway he jumps to the conclusion that it is unnatural and unhealthy for man to bathe. His contention might apply to primitive man, but it

If you deal in values—you'll appreciate the Ford. Its simplicity—its economy—and its dependability give it a value that cannot be measured by its price. The Ford is the one car that has "made good" in world-wide service.

Five hundred dollars is the price of the Ford runabout; the touring car is five fifty; the town car seven fifty—C.O.B. Detroit, complete with equipment. Get catalog and particulars from Hiram B. Weaver, 79 Rogers Street, Portsmouth, N. H.

## RESIGNED AS AUTO INSPECTOR

Charles R. Quinn, of this city, State Inspector in the automobile department for the state of New Hampshire has resigned his position. The salary was not enough for him to neglect his own business to travel for the state for just a few months in the summer time. Mr. Quinn stated to the reporter that he liked the automobile work and liked the Secretary of the State to work for, but where the state only required the service of a man for about three months at the most, he could not see where it would be for his interest to hold the position this coming summer and neglect his own business here.

No, Dr. Lee, you will have to amend your theory; it doesn't hold water in this age of the world.—From the Rochester-Post-Express.

### SEARCH FOR MARK A. FOOTE

Chicago, March 27.—Federal officials today continued their search for Mark A. Foote, United States Commissioner, who disappeared five days ago, according to a report made yesterday by Mrs. Foote.

It was reported at the Federal Building that Foote had been despondent because most of the cases recently had been given to other commissioners.

Mr. Louis Collins, a member of the high school faculty, is spending the school vacation with his family at Lacoda, this state.

# Winter Chills Breed Kidney Ills

Chilly, damp, changing weather is hard on the kidneys. Even more irritating are colds, grip, pneumonia, tonsillitis, quinsy and other infections. The kidneys get congested and inflamed, and this causes backache and disordered kidney action. Though serious in its latter stages, kidney disease is not hard to conquer if a good kidney remedy is used when the first signs of kidney trouble are noticed.

The best recommended kidney remedy in the world is Doan's Kidney Pills. You hear it everywhere. Get a box.

# Spring is Breaking; Backs are Aching

Backache is often the first sign of some form of kidney disease that has been coming on for months. Look for the other signs:—lame back, sharp pains when stooping or lifting, dizzy spells, nervousness or despondency, with irregular, painful or distressing action of the kidneys; if these signs exist, decide that the kidneys need attention, ere the trouble turns to gravel, dropsy or Bright's disease.

READ THIS HOME TESTIMONY AND THEN GIVE DOAN'S KIDNEY PILLS A TRIAL.

## Portsmouth People Testify

### CONGRESS STREET

E. A. Berry, 117 Congress St., Portsmouth, says: "One of our family is employed on the railroad and the constant jolting and jarring of the cars weakened his kidneys. His back was very lame and at times his whole body became sore. Learning that Doan's Kidney Pills were a fine remedy for kidney complaint, he procured a box at Philbrick's Drug Store, and began using them. Before long a cure followed. From that day to this kidney trouble has not returned. I also used Doan's Kidney Pills and they cured me of lameness in my back and strengthened my kidneys."

### GATES STREET

Mrs. John M. Smart, 172 Gates St., Portsmouth, says: "Eight or nine years ago I began to suffer from kidney trouble. I had sharp pains in the small of my back, which at times changed to a dull, grinding ache. If I exerted myself, my suffering was more severe. I felt tired nearly all the time and had but little energy. Having reason to believe that my kidneys were disordered, I began trying various remedies, but without success until I procured Doan's Kidney Pills at Philbrick's Pharmacy. Two boxes improved my condition in every way."

### BURKETT STREET

James Pickles, 11 Burkett St., Portsmouth, says: "I was afflicted with kidney disease for several years. I had dull pains in my back. Often I had sharp acute twinges across my loins that I could scarcely move. The kidney secretions contained sediment and were so frequent in passage that I was obliged to get up several times at night. I was unable to find relief until I used Doan's Kidney Pills, procured at Philbrick's Pharmacy. They helped me from the first and continued use entirely cured me."

### PLEASANT STREET

George S. Chandler, 420 Pleasant St., Portsmouth, says: "I do a great deal of walking in my work and in that way my kidneys became weakened, causing me much suffering. About three years ago I learned of Doan's Kidney Pills and began using them. They cured me and I have had little trouble since. Sometimes when I overwork or do any heavy lifting, I notice lameness in my back, but on such occasions a few doses of Doan's Kidney Pills bring relief. I have recommended this remedy to many of my friends and in every instance where it has been tried, benefit has followed. Doan's Kidney Pills can be procured at Philbrick's Drug Store and should be given a thorough trial by every kidney sufferer."

### CABOT STREET

Thomas Entwistle, ex-chief of police, 47 Cabot St., Portsmouth, says: "I think as highly of Doan's Kidney Pills today as I did years ago when I first used them. At that time I was in a bad way as a result of kidney trouble and though I had repeatedly tried other remedies to get relief, my efforts were in vain. When Doan's Kidney Pills came to my attention, I procured a supply at Philbrick's Pharmacy and began using them as directed. In a short time I was rid of kidney trouble and felt better in every way. I occasionally have a slight pain in my back, but a few doses of Doan's Kidney Pills give me prompt relief."

### COFFIN'S COURT

Charles E. Oliver, barber, 45 Coffin's Court, Portsmouth, says: "Standing for hours brought constant strain on my kidneys and I finally began to have kidney complaint. My back was so lame at times that I could hardly work and I was troubled by headaches and spells of dizziness. When I heard of Doan's Kidney Pills, I got a box and began using them following the directions closely. The pains in my back and other symptoms of kidney complaint soon left and I felt much better in every way. The cure has since proven to be a permanent one and I, therefore, advise anyone suffering from disordered kidneys to try Doan's Kidney Pills."

## HAVE MADE MANY IMPROVEMENTS

### Forthcoming Report of County Commissioners Contains Much Interesting Data to Residents of County

The following is gleaned from the annual report of county officers, which will soon appear.

The commissioners note extensive improvements at the county farm. "The brick buildings formerly used for the insane have been changed to a splendid hospital for the old men and women; in fact, your commissioners feel they have a pardonable pride in the change, and we extend a cordial invitation to taxpayers to visit and see for themselves. We have built a new kitchen in the rear of the main house, which has filled a long needed want, in removing the steam boilers from the main building. We have increased and improved the stock to such an extent that we now have one of the best herds in the state. Our outside poor need careful attention, and in many cases we are able to support off the farm. Yet we think that at the farm they are better cared for than in some of their own homes. One of the hardest problems is the care of the children, which some of our foreign population think they can desert at any time. This department costs the county about \$5000 each year."

Following is a summary of county expenses: County farm, \$32,770.10; county poor off farm, \$26,063.90; aid furnished to soldiers and their families, \$7,087.36; register of probate, \$477.97; register of deeds, \$271.95; superior court, \$2,606.07; county bridge, \$1,203.70; state hospital, \$7.99; records building, \$705.70; Portsmouth jail, \$6,037.67; Portsmouth court house, \$1,260.05; Exeter jail, \$900.40; Exeter court house, \$877.13; district courts, \$485.04; county hospital, \$9,707.11; new kitchen at county farm, \$2,977.16; miscellaneous, \$1,230.79; total expenses for year, \$94,050.18.

The county farm had at the year's opening 173 inmates and at its close 165. They were maintained at a weekly cost each of \$2.84. Despite the drought crops were abundant. For their management Superintendent and Mrs. Albert J. Trotter merit warm praise.

The recapitulation of Treasurer James L. Parker's report shows the following receipts: Cash on hand at the year's opening, \$23,050.50; county taxes of 1912, \$1,042.60; of 1913, \$82,749.04; state board of license commissioners, \$18496.21; income of county farms, \$3,675.34; miscellaneous, \$3,253.61; notes, \$25,000; a total of \$173,271.30. Disbursements were: Commissioners' orders, \$94,050.18; superior court orders, \$5,920.88; superior court jury pay rolls, \$3,677.64; interest and coupons, \$4,782.91; salaries, \$4,458.37; commissioners' expenses, \$764.54; medical examiners, \$741.61; notes paid, \$5,000; bonds paid, \$5,000; a total of \$124,336.03; cash on hand at the year's close, \$48,935.27.

The county's bonded indebtedness is \$21,000, court house loan, due July 1, 1918, four per cent; funding floating debt loan, \$34,000, due October 1, 1921, three per cent; \$40,000 of funding bonds of 1911, serial each year to June 1, 1921, 3 1/2 per cent; \$20,000 of fall bonds, due \$5000 each year from December 1, 1922, to December 1, 1925, inclusive, four per cent. There are outstanding demand loans of \$20,000, a total indebtedness of \$145,000. The net debt is \$93,350.97, an increase for the year of \$3,736.87, caused by outlays at the county farm authorized by the county convention.

County property is valued at \$317,416.00.

The auditors' reports shows that the commissioners received the following: Norman H. Beane, services, \$774, expenses, \$254.84; William A. Hodgdon, services, \$939, expenses, \$283.00; George A. Carlisle, services, \$819, expenses, \$246.61.

must be paid in to the secretary before April 27th, but this does not include car fares, while in New York, or fare to and from New York.

Luncheon at the club on Monday noon for club members.

## PORTSMOUTH THEATRE PROGRAMME

FOR FRIDAY and SATURDAY  
"When the Cartridges Failed"—Edison Drama.

This photoplay written and directed by Ben Wilson, who also takes part in the story, is meritorious and concerns the heroism of a young girl who risks her life to protect the financial interest of her employer.

"A Pair of Frauds"—Vitagraph Comedy.

They pretend they are wealthy. They begin a desperate courtship. They meet and learn each other's deception.

ACT—Boyer and Barke—Talking and Music.

"The Smuggler's Sister"—Selig Drama.

How a coast beauty hypnotized a revenue officer—with the authoress, Hattie Eaton, impersonating the leading role.

ACT—Lloyd and Churchill—Singing Comedians.

"Pa and Ma Elope"—Biograph Comedy.

"Politics and Suffragettes"—Is on the same reel. No wonder they were 'bum' politicians and out of a job.

"Buffalo Jim"—Vitagraph Drama.

A great Western picture. He whips the bully of the camp and ignores the girl who started the quarrel. She tries to win him back but he ignores her.

Two Fine Pictures for Monday and Tuesday: "In the Gambler's Web"—Lubin—Two Parts. A drama, featuring Edgar Jones.

"September Morn"—Patha—One Reel—Comedy. You've all heard about her, now come and see.

Matinee 2.15. Evening 7.00. Saturday Evening 6.45. COME EARLY

## A SERIES OF LECTURES

The officer in charge of the local corps of the Salvation Army desires to announce that a series of special addresses will be commenced tomorrow afternoon at 3 o'clock. The subjects are to be characters from Mr. Harold Begbie's great book, "Twice-Born Men."

The book has had an immense circulation, and the public is cordially invited to attend these thrilling and helpful lectures. Admission free.

From the "oiled rubber" coat at \$3.50, "way up through" to the Priestly cravenetted "Balmacaan" Spring overcoat, the limit in style for a waterproof garment, we show everything that is popular and practical for protection from rains up to a price of \$22.50 with special values at \$10.00, \$12.00 and \$15.00. We look out for the boys as well and make a specialty of rain-coats for ladies.

## INFORMATION WANTED.

### Cincinnati Man Thought to Have Come to This City.

Hunt for Carl Meents, Cincinnati man missing from home since July 1911; mother made ill by his long continued absence.

Members of his family are deeply desirous of finding him. Nothing has been heard of him since he left. It is supposed he settled in Portsmouth or vicinity.

He is a machinist by occupation, about 31 years old; 5 feet 11 inches; light complexion, weight about 175 or over. Since he left home his father was dead and one of his brothers was killed in the Cincinnati Chamber of Commerce fire.

## PERSONALS

Conductor J. J. Goodwin is improving from a surgical operation.

Miss Agnes Connors of Islington street is passing a week with relatives in Boston.

Nelson Pringle is passing his vacation with his grandparents at St. Johnsbury, Vt.

Misses Ruth and Doris Seybolt left for New York this morning to visit their aunt. They were accompanied as far as Boston by their father, Mr. Edward Seybolt.

## PERSONAL ITEMS

Mrs. F. E. Potter is spending the week with friends in Boston.

Dr. Julia Chase of Middle street is the guest of relatives in Portland.

Miss Helen Hagist is home from Simmons College for the Spring vacation.

Mrs. Mary I. Wood has recovered from her recent illness and is able to be out again.

Mr. Charles L. Cheatham is spending the Easter vacation at his home in Lewiston, Me.

Mrs. L. C. Lord of Somerville is visiting her sister, Mrs. L. E. Hancock of Richards avenue.

Miss Josephine H. Howes, teacher at the local high school, left on Friday for her home at Keene, this state.

Miss Marjorie Graves of the high school teaching staff is spending the Easter recess at her home in Exeter.

Miss Elsie Jeffers, teacher of French at the high school, is enjoying her vacation at her home in Chelsea, Mass.

Miss Lizzie Fernin of the Spaulding street school left on Friday for Washington, D. C., to spend her vacation.

Mr. and Mrs. Leslie Corbin were called to Boston yesterday by the death of her mother, Mrs. Dentsey.

Miss Anna Rand, teacher at the Manning street kindergarten is spending the spring vacation at Cleveland, Ohio.

Mr. and Mrs. James N. Pringle went to Portland, Me., today on a visit and from there they go to Boston by steamer.

Miss Fannie L. Taylor of the high school teaching staff left for Portland, Me., on Friday, where she will spend her vacation.

Miss Frances H. Bates of Chapin's school of Norton, Mass., is visiting her parents, Mr. and Mrs. John K. Bates of South street.

Miss Winifred Hodgdon of Burdett College is spending the week-end with her parents, Mr. and Mrs. C. E. Hodgdon of Woodbury avenue.

Miss Marion Craig has arrived home from Simmons College to pass the Spring vacation with her parents Mr. and Mrs. William Craig.

Mrs. L. E. Bancroft, who is ill with pneumonia, is somewhat improved, and is now on the road to recovery, which is gratifying to her many friends.

Miss Dorothy Kelley has arrived at her home in this city to be the guest of her mother, during the spring recess from her studies at the Plymouth Normal school.

Messrs. Edward Weeks, Edward Weeks, Jr., Harry de Rochemont, Fred de Rochemont, Morris Hurd, William Goodwin and Harold W. Call attended the wrestling match between Burns and Gerhardt in Boston last evening.

## WILL VOTE ON WATER STREET

### Voting Quarters of Ward 5 Changed Again.--Booths Will be Up Stairs

Every year the voters of ward five are wondering where they will cast their ballots on election day. Ever since this ward was established, the committee on city lands and buildings have been busy hunting up a polling place for the river front voters. Now comes another shift, this time to Water street in the building owned by H. A. Clark at the corner of Commercial Wharf. This was made necessary by the purchase of the Tucker property on Shaw street by another furniture firm. In the future the voting booths will be up stairs, and the politicians of the ward say that ward one and four with second floor politics will have nothing on the fifth district.

Since the first ward room in this place was opened in the old high school annex on Chapel street, it has been first one place and then another on Bow street, while the voters of the other four wards have marked their ballots in the same place so many years.

## NAVY YARD NEWS

**Going to be Busy**  
According to Mayor Curley of Boston who received a message from Secretary Daniels on Friday there will be plenty of work at the Boston navy yard later. "The secretary states that between April 1 and May 1 the battleships Rhode Island, Virginia, Nebraska and Georgia, besides seven destroyers, would arrive at the yard to undergo repairs."

## Bids on the Way

The bids submitted by the local yard for the construction of the light house tender Stern were forwarded to Washington today and will be opened by the department on Monday next. The several departments have been at work on the same since February 12.

## First Shipment Arrives

The first shipment of steel for the new coal barges arrived today in two carload lots. Pretty quick work since the work of construction was awarded.

## Will Arrive Tonight

A crew of thirty men for the Vulcan are expected to arrive tonight by train from Newport and the vessel will sail on Monday or Tuesday. The collier has been waiting for these men since March 15.

## GIRLS' CLUB NOTES

On Sunday afternoon the Girls' Club rooms will be open and there will be a social hour from 2.30 to 5. Miss Esther Slosberg will chaperon. The monthly baked bean supper will be held in the club room this Saturday evening from 5 to 7. It is a rainy and disagreeable night, so that those people down town can just drop into supper at the Girls' Club.

The club rooms have been rented several times during the past week. On Wednesday evening the South Parish Alliance of the Unitarian church held a social at the club rooms. On Friday afternoon the Grafton Club held a social and tea and on Friday evening Mrs. William Cogan and Miss Esther Slosberg gave a card party at the rooms.

When the Girls' Club rooms are not in use the club would be glad to rent them for a small fee.

Expenses for the stay in New York

If you did not come to the Scenic yesterday, don't stay away today. This four part picture, "Victory or Death," is really one of the best we have shown. Startling in situations it keeps you tense from start to finish. There is a daring drop from an aeroplane to the water far below. An ocean liner explodes, catches fire and goes to the bottom; also many other thrilling scenes. With this comes a two part feature, "The Arrow Maker's Daughter." This is an Indian picture dealing with life on the western frontier. "The Clerk" is a single reel drama; and to make you laugh, two comedies, "The Port Laureate of the Flying A" and a Keystone, "Twixt Love and Fire."

With Miss Belle Barron's songs this makes a two and one-half hour show.

On Monday and Tuesday comes the feature, "A Life for a Life." This is a war story of the time when Napoleon the First was terrorizing all Europe. It is a worth-while picture of the best.
